DELUXE BODIED VANES

No. 1-DL (12" x 12")
No. 1-DS (9" x 8")

Horse

No. 4-DL (10" x 14")
No. 4-DS (6" x 9")

Sailboat

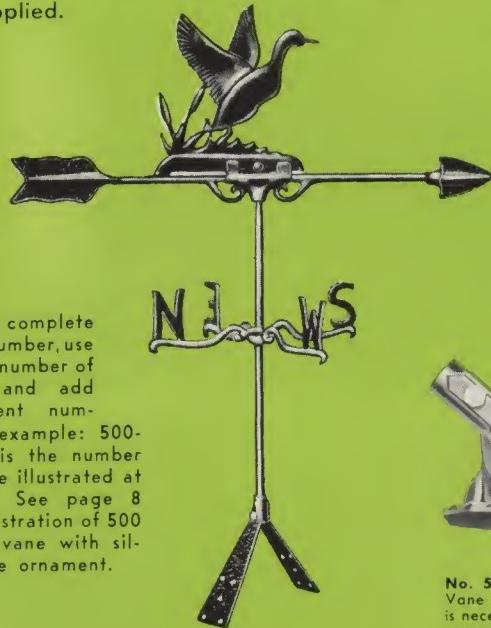

No. 12-DL Doctor & Buggy

16" x 8"

(Available in Large Size Only)

"IT'S an ill wind that blows nobody some good" is an old saying. You need not guess which way the wind blows if you have an IPC Deluxe Weather Vane on garage, cupola, breezeway, house or barn.

Made from special aluminum and bronze alloys, weather resistant, rust proof, E-Z action ball point bearing, ridge saddle is pliable and may be shaped to roof pitch; thru-roof mounting can be supplied.

500 SERIES WEATHER VANE

The 500 Series Vane has a 28" arrow and is approximately 38" high including ornament. Modern design of directional and arrow is very attractive in all settings.

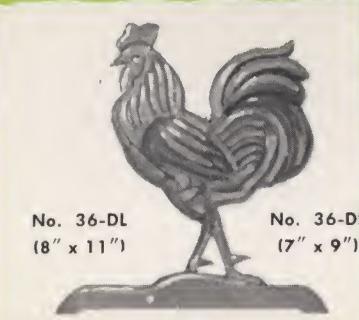

Cow

No. 26-DL (12" x 8")
No. 26-DS (9" x 7")

Hog

No. 33-DL (11" x 7")
No. 33-DS (9" x 5")

No. 36-DL (8" x 11")
No. 36-DS (7" x 9")

Rooster

No. 59-DL Spinning Wheel
(Available in Large Size Only)

5" x 9"
(Available in Large Size Only)

No. 68-DL Town Crier

6" x 11"
(Available in Large Size Only)

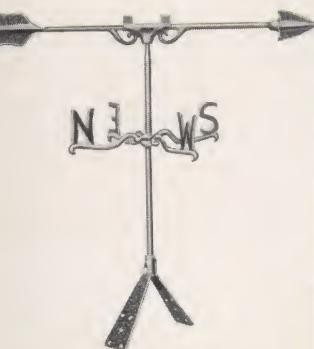

No. 62-DL Lamplighter

No. 14-DL Pointer

12" x 6"

(Available in Large Size Only)

500 SERIES ARROW VANE

For those who wish a weather vane without an ornament, our No. 500 or 400 Series vane is very attractive.

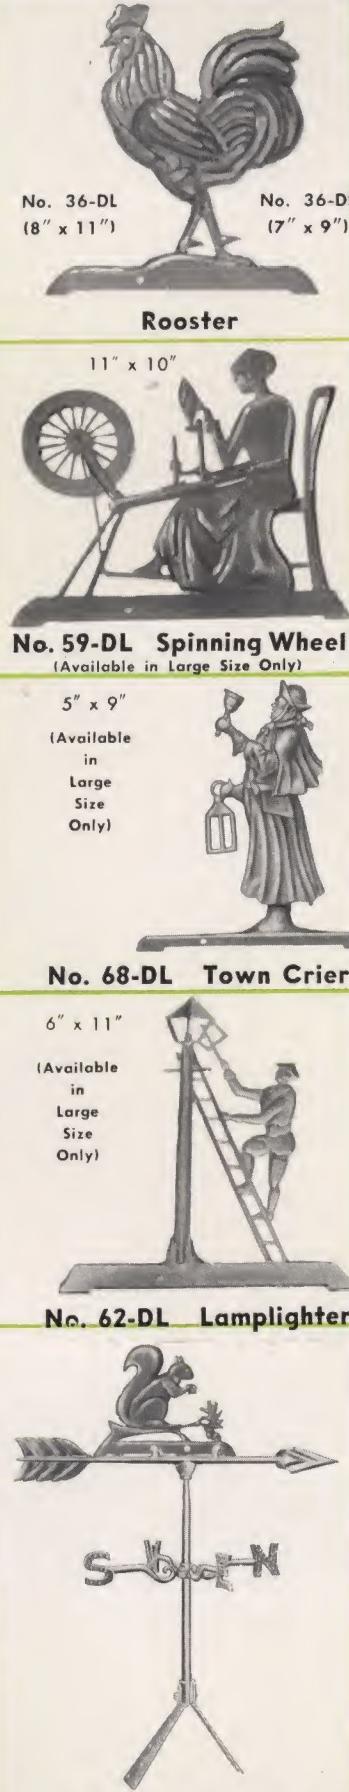

No. 29-DL Duck

Squirrel

NOTE: Deluxe-bodied ornaments illustrated on this page made of durable cast aluminum with smooth dull black weather-resistant satin finish and third dimensional effect.

Any of the large deluxe ornaments (DL) shown above can be used on 500 or 900 weather vanes or on 600, 700, 800, 800R and 800X markers. Small deluxe ornaments (DS) can be used on 400 weather vane and 300 post marker. Note that some deluxe ornaments are not available in small size.

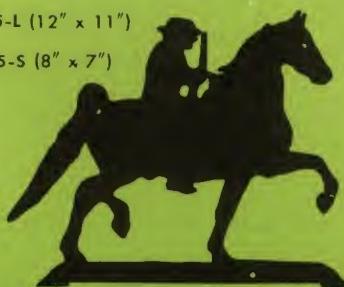

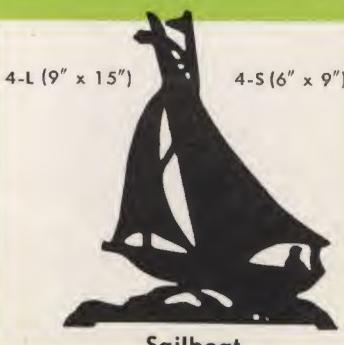

400 Series Weather Vane illustrated with No. 34DS full bodied Squirrel Ornament, (complete number 40034DS).

See page 9 for more information on 400 Series Weather Vanes.

All silhouette ornaments shown on this and following pages are made of durable cast aluminum with crackle design and dull black weather-resistant satin finish. Each ornament has name and number with approximate dimensions.

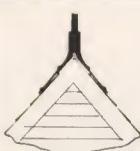

"L" indicates large size ornament for Nos. 500 and 900 vanes and 600, 700, 800, 800R and 800X markers. "S" is smaller size for No. 400 vane and 300 marker. The "S" ornament can be used on any marker where smaller ornament is desired.

Height Overall — 33"

Arrow — 30" Long

30" VANES

Illustrating roof saddle which is standard—it is pliable and may be shaped to roof pitch.

No. 5AB adjustable base can be furnished in place of ridge saddle if preferred.

900 SERIES WEATHER VANE

The 900 Series Vane features simplicity of design. Note the attractive straight lines of the directionals and the plain arrow. The ideal vane for those who do not care for frills and elaborate design.

The 900 Series Vane can be furnished with any of the large silhouette ornaments (Nos. 1-L to 95-L) listed in this folder or with any of the large deluxe-bodied (DL) ornaments shown on preceding page.

For complete vane number, use series number of vane and add number of ornament you wish. (Example: 90012L is number of vane illustrated above.)

VANE CONSTRUCTION

IPC vanes are very sturdy and rugged, designed to give many years of faithful service.

Constructed of special aluminum and bronze alloys, weather-resisting and rust-proof materials.

Feature E-Z action principle — exclusive ball point bearing design — turn with the slightest breeze.

Finished with eye appealing crackle design — entire vane has dull black weather-resistant satin finish.

No. 5AB Adjustable Base or thru-roof mounting can be furnished in place of regular ridge saddle, if preferred. Unless other mounting is specified on order, ridge saddle will be furnished. Slight additional charge is made for thru-roof mounting.

GUARANTEE

IPC Weather Vanes and Markers are not a new product by a new company. IPC Weather Vanes have been tested and weathered in actual service in all parts of the country for years.

All vanes and markers are fully guaranteed against defective materials and workmanship.

CUSTOM-BUILT WEATHER VANE

MINIATURE WEATHER VANE
No. 2052C

8" in height overall. Cupola 2" square. Arrow actually turns. Complete in every detail. Vane — black with white rooster, cupola → natural aluminum.

Use inside on mantel or picture-window sill or outside on lamps, posts, bird feeders, dog houses, etc.

Press Photographer

82-L (8" x 9")

82-S (6" x 7")

Illustration at left shows one of our large custom-built weather vanes. This style can be furnished with arrow up to 48" in length. Has all the features of our regular 400, 500 and 900 Series Vanes. Send specifications as to size and ornament desired and we will quote.

Other special vanes can be made from your specifications. Send blueprint or sketch and let us quote on your needs.

*Slight additional charge for special finishes illustrated on ornaments Nos. 81, 93 and 94. These can be furnished in regular black finish at standard prices.

Other ornaments can also be painted in special colors at slight extra charge.

Special Designs

We make up special ornaments from sketches, photographs or ideas submitted. Small additional charge for this service.

DECORATIVE
DISTINCTIVE

All markers on this page are made of cast aluminum and have a dull black weather-resistant satin finish. All plates except the 300 and 800R have crackle design. For complete marker number, use the Series number and add the ornament number.

HOUSE MARKERS

NO. 600 SERIES HOUSE MARKER

Bracket 19" long. Plate 7" x 16". Silhouette ornaments Nos. I-L to 95-L and deluxe bodied (DL) ornaments can be used. (Complete marker illustrated is No. 60028L.)

LAWN MARKERS

NO. 700 SERIES LAWN MARKER

Frame encircling plate is 9" x 18"; stake is galvanized steel rod, 5/8" x 30" long. Silhouette ornaments Nos. I-L to 95-L and deluxe-bodied (DL) ornaments can be used. (Complete marker illustrated is No. 70034L.)

NO. 800 SERIES POST MARKER SWINGING TYPE PLATE

Bracket 17½" long. Plate 7" x 16". 10" x 17½" plate can be furnished where 3 lines of copy are required. Silhouette ornaments Nos. I-L to 95-L and deluxe-bodied (DL) ornaments can be used. (Complete marker illustrated is No. 80022L.)

NO. 800PS ALUMINUM STRAPS

For mounting post markers on 3" or 4" diameter posts. Straps are 22" long.

No. 800R SERIES POST MARKER →
(at right)

Bracket 17½" long. Plate 4" x 14". Plate has raised letters permanently cast on both sides. Can furnish one or two line plate — maximum of seventeen letters and spaces per line. Border and letters finished with white enamel — balance of plate, black corduroy type finish. Letters can be finished with reflex paint to reflect light at night, if specified, at slight extra charge.

Silhouette ornaments No. I-L to 95-L and deluxe-bodied (DL) ornaments can be used. (Complete marker illustrated is No. 800R2L.)

ORNAMENT SUPPORT

NO. 65B FLAT SURFACE BRACKET

Can be mounted on any flat surface such as mailbox (see illustration at right), gate pillar, etc. All ornaments listed in this folder, either large or small size, can be used with this support.

POST MARKERS

NO. 800 SERIES POST MARKER SWINGING TYPE PLATE

NO. 800X SERIES STATIONARY TYPE PLATE

Bracket 17½" long. Plate 7" x 16". Silhouette ornaments Nos. I-L to 95-L and deluxe-bodied (DL) ornaments can be used. (Complete marker illustrated is No. 800X59DL.)

NO. 300 SERIES POST MARKER

Bracket 14" long. Plate 4" x 12". Silhouette ornaments Nos. I-S to 95-S and small deluxe-bodied (DS) ornaments can be used. (Complete marker illustrated is No. 3003S.)

IMPRINTING — All markers shown on this page except 800R Series can be hand-lettered with white enamel or with white reflex enamel (beaded to reflect light at night). Die-cut Silver Scotchlite letters can be applied if preferred. (Because the Scotchlite letters are pre-cut their use is limited to short names and numbers. The No. 300 marker will accommodate one line of five numbers or letters and the 600, 700, 800 and 800X markers will take two lines of Scotchlite with a maximum of eight letters per line or one arched line of ten letters.) Scotchlite letters are also available in sets or in bulk — can be applied by dealer or customer. Pressure-sensitive back — simple to apply.

NOTE: When lettering is required, state on your order whether you want white enamel, reflex enamel or Scotchlite and whether lettering is desired on one or both sides of the marker. On the 300 and 800X post markers, if lettering is desired on only one side of the plate, please state which side. (See price list No. V-551 for costs of lettering.)
